

CNC-102 L500 Tabletop Low Speed Centrifuge

Easy to use, many kinds of rotors. Fast Acceleration /Deceleration function. 9 Acceleration (ACC) and 10 Deceleration (DEC) profiles. Microprocessor control, LCD display, DC brushless motor. It can store 25 different programs in memory. Electronic door interlock and stainless steel chamber. Special button for short centrifugation. The parameters can be changed freely during the run. The protection function of imbalance.e.

Characteristics	Specifications
Model	CNC-102 L500
Maximum Speed	5000r/min
Maximum RCF	4030×g
NO1 Maximum Capacity	4×50ml 16×15ml 24×5ml 4200r/m,2760×g
Time Setting Range	1~99min59s, short speed centrifugation and indefinitely (HOLD)
Acceleration / Deceleration Rates	9/10 Profile
Power Supply	AC220V 50Hz 5A
Noise Level	≤65dB(A)
Dimension(L×W×H)	370×432×250mm
Net Weight	15 kg
