

## CNC-103 L530 Tabletop Low Speed Centrifuge

L530 is designed for multiple usage. Easy to use, many kinds of rotors. 9 Acceleration (ACC) and 10 Deceleration (DEC) profiles. Microprocessor control, LCD display, DC brushless motor. RCF value can be calculated automatically. It can store 25 different programs in memory. Electronic door interlock and stainless steel chamber. Special button for short centrifugation. The parameters can be revised freely during the run. The protective function of imbalance.

Characteristics	Specifications
Model	CNC-103 L530
Maximum Speed	5300r/min
Maximum RCF	5010×g
Maximum Capacity	1000ml(4×250ml)
Time Setting Range	1min~99min (LCD)
Speed Control Accuracy	±30r/min
Power Supply	AC220V 50Hz 5A
Noise Level	≤65dB(A)
Dimension(L×W×H)	470×560×380mm
Net Weight	38 Kg
